

Automotive General Service Technician

⇒ Do you enjoy tinkering with things and working with your hands? This course prepares students for employment where a broad skill set, and general understanding of all automotive systems are required.

⇒ Learn about:

- Common tools and equipment
- Perform basic vehicle service and maintenance related to engine performance, transmission, suspension and steering, brakes, electrical/electronic systems, basic heating and air conditioning and customer service procedures
- Safety in the workplace

⇒ Prepare to take the National Automotive Technicians Education Foundation certification test.

⇒ Worksite learning is an optional component of this class and is available to eligible students.

⇒ Earn college credit!!! This course is articulated with local community colleges.

⇒ **Start your career as a Mechanic!**
