

Career Express Online

SUMMER 2016

Advantages of Online Learning — Convenience and Flexibility

- **Schedule flexibility:** You can access your program at any time, from anywhere. The only things you'll need are a computer and Internet access.
- **Ease of accessibility:** Your program is available for you when you need it. You can review lectures, discussions, explanations, and comments. Furthermore, you will be a part of a growing online community, and will work with fellow students to share notes and learn together.
- **Study time:** On-campus programs are typically scheduled in a more rigid format. One of the great parts of Career Express Online is that you have the choice of how much time you spend in your program each day. Your lessons can be started when you are ready, paused if you need a break, and your notes are available whenever you need them.

Is Career Express Online right for you?

Are you:

- **Self motivated?**
You will direct your own learning and methods to fulfill your program requirements and achieve academic success.
- **An independent learner?**
You will pace yourself through your program, relieving the stress of feeling rushed or pressured, to provide yourself enjoyment in the learning process.
- **Computer literate?**
You do not need to have advanced computer skills, but you will need to have a working knowledge of electronic email, the Internet, and basic keyboarding skills. You will also need internet access and a valid email address.

Do you have:

- **Good time management skills?**
You will need to organize and plan your own best "time to learn". There is no one best time for everyone, but the key to your success is finding your best time.
- **Effective written communication skills?**
You will be using electronic email and discussion forums to communicate with your peers and instructors. The ability to write clearly to communicate ideas and complete assignments is essential. This method will provide you with rapid feedback, as well as a means to inform your instructor of any concerns or problems you may be experiencing.
- **A personal commitment to your success?**
Since there are no bells that begin and end your class, you must have a strong desire to learn and achieve knowledge and skills via your online program. Making a commitment to learn in this matter is a very personal decision and requires a strong commitment to perform in order to achieve academic success.
